

TOGETHER CREATING PURE OIL, GAS AND WATER

PRESS RELEASE
FOR IMMEDIATE DISTRIBUTION

ProSep Signs \$2.1 Million (U.S.) Contract with Whiting Petroleum

- Expands relationship with growing independent oil and gas company -

MONTREAL, QUEBEC – March 5, 2009 - ProSep Inc. (TSX: PRP), dedicated to providing process solutions to the oil and gas industry, announced today it was awarded a \$2.1 million (U.S.) contract by Whiting Petroleum to provide an additional membrane unit to increase gas treatment capacity at their Wickett CO₂ Removal Facility located in West Texas.

“Our Houston team is focused on delivering quality and their ability to build strong client relationships has been instrumental to our growing success,” said Jacques L. Drouin, President and CEO of ProSep Inc. “Our group’s expertise, combined with the modularity of our membrane technology, allows us to seamlessly retrofit installed equipment and quickly increase treatment capacity, an important cost-benefit for enhanced-oil-recovery activities.”

Whiting Petroleum’s Wickett facility recovers CO₂ from high-CO₂ associated gas for enhanced-oil-recovery re-injection. The membrane unit currently operating at Whiting Petroleum’s West Texas treatment facility was provided by ProSep in 2006. As Whiting Petroleum’s production grew by 50%, additional treating capacity is required. With this expansion equipment, treatment capacity will increase from 40 MMSCFD to 60 MMSCFD. Delivery is scheduled for the third quarter of 2009.

ProSep’s sales backlog totals approximately \$43 million.

About Whiting Petroleum Corp.

Whiting Petroleum Corporation, a Delaware corporation, is an independent oil and gas company that acquires, exploits, develops and explores for crude oil, natural gas and natural gas liquids primarily in the Permian Basin, Rocky Mountain, Mid-Continent, Gulf Coast and Michigan regions of the United States. The Company trades publicly under the symbol WLL on the New York Stock Exchange.
