A LETTER FROM THE PRESIDENT & CEO

The oil and gas industry is facing challenging times, and upstream equipment and service suppliers have to find ways to be increasingly innovative to maintain their competitive edge. At ProSep, our commitment to delivering quality and highly efficient process solutions has always been a driving force. As part of our dedication to develop best-in-class solutions, we recently introduced a new line of conventional *produced water treatment solutions*.

With this new technology, our outstanding team of engineers can now offer the industry's most comprehensive portfolio of process solutions. Our extensive range of conventional and proprietary technologies, combined with our vast collective experience, allows us to design the best process solutions suited to each client's specific needs, helping reduce costs, minimize capital investments and create pure oil, gas and water.

Jacques L. Drouin
E-mail the President & CEO

TOP NEWS

ProSep awarded multi-million dollar contract to supply fuel gas packages in Asia

ProSep was awarded a large contract to supply fuel and gas seal packages to a major engineering, procurement and construction firm for an offshore project in Asia. The packages will be used to condition and process the natural gas by removing hydrocarbons and other compounds.

PROJECT UPDATES

MEMBRANE PLANT AT OXY'S ELK HILLS GTU2 FACILITY

- ProSep successfully completed the commissioning for the 150 MMSCFD membrane plant located at Oxy's Elk Hills GTU2 facility in California.
- Commissioning involved membrane loading supervision, several days of formal operator training, and final commissioning/start up.
- The single-stage CO₂ gas membrane separation unit will reduce the CO₂ content in natural gas from 3.0% down to 1.5% to meet sales gas pipeline specifications.

NEWS BRIEFS

ProSep receives industry recognition

ProSep's compact desalting technology was awarded an Offshore Technology Conference (OTC) 2009 Spotlight on New Technology Award, which recognizes innovative technologies that significantly impact offshore exploration and production. The awards were presented May 4, 2009, at the conference at Reliant Park in Houston, Texas. [More...](#) | [E-mail a ProSalt expert](#)

ProSep at the Asian Oil, Gas and Petrochemical Engineering Exhibition, OGA 09

See how our complete line of process solutions can help create pure oil, gas and water in Asia Pacific's exciting deepwater development hub. Come visit ProSep at Powerium Engineering's booth in Hall 6A at the Kuala Lumpur Conference Center, June 10-12, in Kuala Lumpur, Malaysia. [More...](#) | [E-mail a ProSep AP expert](#)

ProPure Middle East Oil, Gas and Water Treatment Technology Seminar 2009

ProPure will host a technology seminar in Bahrain, June 9-10, 2009 for operators in the Gulf region. Featured topics include enhanced oil-water separation, economical desalting, economical removal of H₂S and zero-discharge approach to treating produced water.
