

TORR Canada successfully delivers second and final half of major contract to SK Engineering & Construction

MONTREAL, QUEBEC – April 18, 2007 - TORR Canada Inc. (TSX: TOR) ("TCI"), dedicated to providing water treatment to the Oil & Gas industry, today announced that it has delivered the second and final half of its contract with SK Engineering & Construction ("SKEC"), one of the world's leading engineering, procurement and construction organizations.

The contract signed in March of 2006 provided for seven sets of TORR water treatment systems to treat 260,000 barrels per day of water, for a total value of over \$US22.4 million. The last three out of the seven sets to be operated by Kuwait Oil Company were delivered at the beginning of April, representing a total of twenty-one skids provided for in the original contract.

"The successful delivery of these seven systems shows our ability to design and manufacture large systems for major oil and gas companies. Once commissioned, future operating and performance success will allow these systems to become reference units in an area where TCI has had great visibility in the last year." said Alain Ferland, President and CEO of TORR Canada Inc.

About TORR Canada Inc.

TCI is dedicated to providing water treatment solutions to the oil and gas industry. TCI designs, develops, manufactures and commercializes the TORR™ and Reusable Petroleum Absorbent ("RPA®") cartridge technologies to separate oil and water in produced water generated by oil and gas production.
